

To help you discover the biodiversity of the estate, while respecting it, we have created a trail through the vineyards. At each wooden marker, you'll find information about the vineyard, the region, organic agriculture, etc.

Find the 10 markers - 1h30 - 2.5 km

Or set off on an adventure for a longer walk!

Beware, this is a hilly route with slopes - walking shoes are recommended.

TOUR AND WINE TASTING

Meeting point at the office Tuesday to Saturday
at 11.am, 3.pm and 4.30 pm

CHÂTEAU SOUCHERIE

ACROSS THE VINEYARD

A desire to get some fresh air, to stroll peacefully between the rows of Chenin and Cabernet, to watch the vines evolve with the seasons, to meet our bees (but not too closely!), pass through the woods to observe wild boar tracks and large oak trees, tread clover, say hello to Comète and Daddy Cool (our ponies), make a shale stone collection, taste a grape, enjoy the fresh air, guess the age of the vines in the Champ aux Loups plot, admire the sunset over the Chaume hillock...

The 20 hectares of vines surrounding the Château bekon.
